DAFTAR ISI

KATA PENGANTAR .................................................................................................................. i

DAFTAR ISI .......................................................................................................................... iii

DAFTAR TABEL ....................................................................................................................... v

DAFTAR GAMBAR .................................................................................................................. vi

DAFATAR LAMPIRAN ............................................................................................................. vii

BAB I PENDAHULUAN ......................................................................................................... 1

A. Latar Belakang ......................................................................................................................... 1

B. Rumusan Masalah Penelitian ................................................................................................. 6

C. Tujuan Penelitian ..................................................................................................................... 6

D. Manfaat Hasil penelitian ......................................................................................................... 7

E. Kerangka Pikiran .................................................................................................................... 7

F. Hasil Penelitian yang Relevan ............................................................................................... 9

BAB II KOMPETENSI GURU FISIKA BERDASARKAN PEDAGOGICAL CONTENT KNOWLEDGE (PCK) DENGAN MENGGUNAKAN MODEL SHULMAN PADA PEMBELAJARAN MOMENTUM DAN IMPULS ......................................................................................................................... 12

A. Guru ....................................................................................................................................... 12

B. Kompetensi Guru .................................................................................................................. 13

C. Kompetensi Guru Fisika ....................................................................................................... 15
D. Pembelajaran Fisika ................................................................. 16
E. Pedagogical Content Knowledge (PCK) ........................................... 17
F. Materi Momentum dan Impuls ....................................................... 25

BAB III METODOLOGI PENELITIAN ........................................... 33
A. Pendekatan dan Metode Penelitian ............................................... 33
B. Jenis dan Sumber Penelitian ........................................................ 36
C. Tempat dan Waktu Penelitian ....................................................... 38
D. Teknik Pengumpulan Data Penelitian ............................................. 39
E. Teknik Analisis Data Penelitian ..................................................... 43

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ................................ 47
A. Hasil Penelitian ........................................................................... 47
B. Pembahasan ................................................................................ 76

BAB V PENUTUP ........................................................................... 87
A. Simpulan ..................................................................................... 87
B. Saran .......................................................................................... 88
