LEMBAR PERNYATAAN .............................................................. iv
ABSTRAK ...................................................................................... v
ABSTRACT ..................................................................................... vi
RIWAYAT HIDUP ............................................................................ vii
KATA PENGANTAR ........................................................................ viii
DAFTAR ISI ...................................................................................... x
DAFTAR TABEL .............................................................................. xii
DAFTAR GAMBAR .......................................................................... xiii
DAFTAR LAMPIRAN .................................................................... xiv

BAB I PENDAHULUAN ................................................................ 1
1.1 Latar Belakang ........................................................................ 1
1.2 Identifikasi Masalah .................................................................. 4
1.3 Tujuan Penelitian .................................................................... 5
1.4 Kegunaan Penelitian ................................................................. 6
1.5 Kerangka Pemikiran ................................................................. 6
1.6 Hipotesis ................................................................................ 8

BAB II TINJAUAN PUSTAKA ................................................................ 9
2.1 Klasifikasi dan Morfologi Kailan ............................................. 9
2.2 Urin Sapi Hasil Fermentasi ...................................................... 12
2.3 Jenis Media Tanam .................................................................. 16
  2.3.1 Tanah ............................................................................... 17
  2.3.2 Arang Sekam ........................................................................ 18
  2.3.3 Cocopeat ............................................................................. 19

BAB III BAHAN DAN METODE PENELITIAN ............................... 22
3.1 Waktu dan Tempat Penelitian .................................................. 22
3.2 Alat dan Bahan ......................................................................... 22
3.2.1 Bahan ................................................................. 22
3.2.2 Alat ................................................................. 22
3.3 Metode Penelitian .................................................. 22
3.4 Analisis Hasil Penelitian ........................................... 23
3.5 Parameter Pengamatan ............................................ 25
  3.5.1 Pengamatan Utama ............................................ 26
  3.5.2 Pengamatan Penunjang ....................................... 27
3.6 Pelaksanaan Penelitian ........................................... 27
  3.6.1 Persiapan Media Tanam .................................... 27
  3.6.2 Persemaian .................................................... 27
  3.6.3 Penanaman .................................................... 28
  3.6.4 Pemberian Urin Sapi Hasil Fermentasi ..................... 28
  3.6.5 Pemeliharaan ................................................ 28
BAB IV HASIL DAN PEMBAHASAN .................................. 30
  4.1 Pengamatan Penunjang .......................................... 30
    4.1.1 Analisis Tanah, Analisis Urin Sapi Hasil Fermentasi, Analis
          Arang Sekam dan Analisa Cocopeat .......................... 30
    4.1.2 Analisa Suhu dan Kelembaban ............................. 32
  4.2 Pengamatan Utama ................................................ 33
    4.2.1 Tinggi Tanaman .............................................. 33
    4.2.2 Jumlah Daun .................................................. 36
    4.2.3 Bobot Basah Brangkasan .................................. 37
    4.2.4 Bobot Kering Brangkasan ................................ 39
    4.2.5 Nisbah Pupus Akar .......................................... 41
BAB V KESIMPULAN DAN SARAN .................................... 44
DAFTAR PUSTAKA ..................................................... 45
LAMPIRAN .............................................................. 50
