DAFTAR ISI

KATA PENGANTAR ................................................................................. i
DAFTAR ISI ............................................................................................ iii
DAFTAR GAMBAR .................................................................................. v
DAFTAR TABEL ...................................................................................... vii
DAFTAR SIMBOL .................................................................................... viii
BAB I PENDAHULUAN
  1.1 Latar Belakang ................................................................................. 1
  1.2 Rumusan Masalah ........................................................................... 2
  1.3 Batasan Masalah ............................................................................. 2
  1.4 Maksud dan Tujuan Penelitian ......................................................... 3
  1.5 Metode Penelitian .......................................................................... 3
  1.6 Sistematika Penulisan Tugas Akhir ................................................ 5
BAB II LANDASAN TEORI
  2.1 Pengertian dan Sejarah Internet ....................................................... 7
  2.2 Web ............................................................................................... 8
  2.3 Pemodelan Bisnis .......................................................................... 9
    2.3.1 Konsep Pemodelan Bisnis ........................................................ 10
    2.3.2 UML ...................................................................................... 11
      3.2.3.1 Activity Diagram .............................................................. 12
      3.2.3.2 Use Case Diagram ............................................................ 14
      3.2.3.3 Class Diagram ................................................................. 17
      3.2.3.3 Sequence Diagram ......................................................... 19
  2.4 Bahasa Pemrograman
    2.4.1 PHP .................................................................................... 19
    2.4.2 CSS .................................................................................... 20
    2.4.3 JavaScript ........................................................................... 20
  2.5 Database ....................................................................................... 21
BAB III TINJAUAN UMUM
  3.1 Sekilas Superbimbel ...................................................................... 23
  3.2 Konsep Belajar Yang Dipilih .......................................................... 24
  3.3 Keunggulan Superbimbel ................................................................. 25
BAB IV ANALISIS DAN PERANCANGAN
  4.1 Analisis dan Perancangan Sistem ................................................... 28
    4.1.1 Deskripsi Sistem Pendaftaran dan Pembelajaran bimbingan
      Belajar Superbimbel ................................................................. 28
    4.1.2 Deskripsi Proses Bisnis yang Sedang Berjalan ......................... 29
    4.1.3 Requirement Model .............................................................. 31
      4.1.3.1 Identifikasi Aktor ............................................................ 31
      4.1.3.2 Deskripsi Proses Bisnis Sistem yang Diusulkan .............. 32
    4.1.4 Skenario Setiap Use Case ....................................................... 36
  4.2 Perancangan Sistem .................................................................... 70
    4.2.1 Use Case Diagram Sistem Pendaftaran dan Pembelajaran
      Superbimbel ........................................................................ 70
4.2.2 Sequence Diagram ................................................................. 71
4.2.2.1 Sequence Diagram Akses Halaman Cotrol Panel Admin .......... 72
4.2.2.2 Sequence Diagram Akses Data Materi .................................. 72
4.2.2.3 Sequence Diagram Akses Data Peserta ............................... 73
4.2.2.4 Sequence Diagram Akses Download File .............................. 74
4.2.2.5 Sequence Diagram Akses Registrasi Pendaftaran .................. 75
4.2.2.6 Sequence Diagram Akses Latihan Soal ................................. 76
4.2.2.7 Sequence Diagram Akses Data Soal ..................................... 77
4.2.2.8 Sequence Diagram Akses Data Content ................................ 77
4.2.2.9 Sequence Diagram Akses Data Program ................................ 78
4.2.2.10 Sequence Diagram Akses Data Account ............................. 79
4.2.3 Class Diagram ......................................................................... 80
4.2.4 Perancangan Tabel ................................................................. 81
4.2.5 Perancangan Antarmuka Pemakai ........................................... 84
4.2.5.1 Desain Tampilan Halaman Fron-end .................................... 85
4.2.5.2 Desain Tampilan Halaman Back-end ...................................... 90

BAB V IMPLEMENTASI
5.1 Implementasi Sistem ..................................................................... 101
5.2 Kebutuhan Perangkat Sistem yang Digunakan dalam Implementasi ...... 101
5.2.1 Kebutuhan Perangkat Keras ..................................................... 101
5.2.2 Kebutuhan Perangkat Lunak ..................................................... 102
5.2.3 Identifikasi User ...................................................................... 102
5.3 Implementasi Database ............................................................... 103
5.4 Implementasi Antarmuka Pemakai .............................................. 104
5.4.1 Tampilan Halaman Fron-end .................................................... 105
5.4.2 Tampilan Halaman Back-end .................................................... 107
5.5 Pengujian .................................................................................. 114
5.5.1 Pengujian Akses Pengunjung .................................................. 115
5.5.2 Pengujian Akses Peserta ......................................................... 116
5.5.3 Pengujian Akses Admin .......................................................... 117

BAB VI KESIMPULAN DAN SARAN
6.1 Kesimpulan .............................................................................. 123
6.2 Saran ......................................................................................... 123
