

ABSTRACT

Azka Saeful Haq. 1155030032, *Mental Process in Leonidas' Utterances from '300' movie script*, An Undergraduate Thesis, English Studies Department, Adab and Humanities Faculty, Universitas Islam Negeri Sunan Gunung Djati Bandung. Advisors: 1. Dr. Dewi Kustanti, M.Pd 2. Ika Yatmikasari, S.S., M.Pd

Keywords : Systemic Functional Linguistics, Transitivity, Mental Process

This research takes movie script as the object. The clauses were gained from *300* movie that was produced by Mark Canton and written by Zack Snyder in 2006. It contains hundreds of clauses but the researcher restricts only to utterances of Leonidas that contain mental process. It becomes the source of data for the analysis. The research problems are: 1. What kinds of mental process are used by Leonidas in his utterances in *300* movie script? 2. What are the frequency of mental process out of total processes in his utterances in *300* movie script and what does it indicate? This research aims to investigate the kinds of mental process and to find out the frequency of mental process out of total processes in his utterances. Theory which is used is systemic functional linguistics pioneered by M.A.K Halliday. Transitivity system is used to analyze the text in this research. Mental process and its types become the focus in analyzing the clauses as data. The method of this research is qualitative method. It does not contain any number from the result of data. The researcher uses words to give the description of data. The result of this research consists of 46 data which are divided into four types of mental process in order to answer the first research question. The first type is cognitive mental process that has 21 data or 45,6% proportion in the analysis. The second one is emotive mental process that has 12 data or 26,1% proportion in the analysis. The third one is perceptive mental process that has 7 data or 15,2% proportion in the analysis. The last one is desiderative mental process that has 6 data or 13,1% proportion in the analysis.

ABSTRAK

Azka Saeful Haq. 1155030032, *Mental Process in Leonidas' Utterances from '300' movie script*, Skripsi, Jurusan Sastra Inggris, Fakultas Adab dan Humaniora, Universitas Islam Negeri Sunan Gunung Djati Bandung. Pembimbing: 1. Dr. Dewi Kustanti, M.Pd 2. Ika Yatmikasari, S.S., M.Pd

Kata Kunci : Systemic Functional Linguistics, Transitivity, Mental Process

Penelitian ini menggunakan skrip film sebagai objeknya. Klausula-klausula diperoleh dari film berjudul 300 yang diproduksi Mark Canton dan disutradarai Zack Snyder pada tahun 2006. Peneliti hanya mengambil tuturan dari Leonidas yang mengandung *mental process*. Tuturan tersebut menjadi sumber data untuk dianalisis. Masalah penelitian berupa : 1. Apa saja jenis *mental process* yang digunakan Leonidas pada skrip film 300? 2. Berapa kali kemunculan setiap *mental process* dan itu mengindikasikan apa? Penelitian ini menginvestigasi tipe-tipe *mental process* and mengungkap frekuensi dari keseluruhan *mental process* tersebut. Teori yang digunakan yaitu *systemic functional grammar* yang dipelopori oleh M.A.K Halliday. *Transitivity system* digunakan untuk menganalisis teks. Metode penelitian yang digunakan adalah metode kualitatif. Metode ini tak berisi angka-angka dari hasil penelitian. Peneliti menggunakan kata-kata untuk mendeskripsikan data. Hasil dari penelitian ini terdiri dari 46 data yang dibagi ke dalam 4 jenis *mental process*. Tipe pertama adalah *cognitive mental process* yang memiliki 21 data dan memenuhi 45,6% proporsi. Tipe kedua adalah *emotive mental process* yang memiliki 12 data dan memenuhi 26,1% proporsi. Tipe ketiga adalah *perceptive mental process* yang memiliki 7 data dan memenuhi 15,2% proporsi. Tipe keempat adalah *desiderative mental process* yang memiliki 6 data dan memenuhi 13,1% proporsi.
