LEMBAR PENGESAHAN ............................................................................. i
LEMBAR PERNYATAAN ........................................................................... ii
ABSTRAK ..................................................................................................... iii
KATA PENGANTAR ................................................................................... iv
DAFTAR ISI .................................................................................................. v
DAFTAR TABEL .............................................................................................. vii
DAFTAR LAMPIRAN ..................................................................................... viii

BAB I PENDAHULUAN
A. Latar Belakang Masalah ........................................................................... 1
B. Rumusan Masalah Penelitian ................................................................. 4
C. Tujuan Penelitian .................................................................................... 4
D. Manfaat Penelitian .................................................................................. 4
E. Kerangka Pemikiran ................................................................................. 5
F. Hipotesis Penelitian ................................................................................ 12
G. Hasil Penelitian Yang Terdahulu ............................................................ 12

BAB II KAJIAN PUSTAKA
A. Terggapan .................................................................................................. 15
   1. Pengertian Terggapan ............................................................................ 15
   2. Fungsi Terggapan .................................................................................. 15
   3. Jenis-Jenis Terggapan .......................................................................... 17
   4. Indikator tanggapan .............................................................................. 18
B. Model Pembelajaran Means Ends Analysis (MEA) ............................... 19
   1. Pengertian Model Pembelajaran ........................................................... 19
   2. Pengertian Model Pembelajaran Means Ends Analysis ....................... 20
   3. Langkah-langkah Model Pembelajaran Means Ends Analysis .............. 21
   4. Kelebihan dan Kekurangan Model Pembelajaran Means Ends Analysis ...... 23
C. Aktivitas Belajar ......................................................................................... 24
   1. Pengertian Aktivitas Belajar ................................................................. 24
   2. Indikator Aktivitas Belajar ................................................................. 25
   3. Faktor-faktor yang mempengaruhi Aktivitas Belajar .......................... 28
D. Mata Pelajaran Pendidikan Agama Islam ........................................ 30
1. Pengertian Pendidikan Agama Islam ........................................... 30
2. Ruang Lingkup Pendidikan Agama Islam ..................................... 31
3. Dasar dan Tujuan Pendidikan Agama Islam ................................. 33
4. Bahasan Nikmatnya Mencari Ilmu .............................................. 36

E. Hubungan Antara Penerapan Model Pembelajaran Means Ends Analysis dengan Aktivitas Belajar Pada Mata Pelajaran PAI Bahasan Nikmatnya Mencari Ilmu .................................................. 42

BAB III METODOLOGI PENELITIAN
A. Pendekatan Dan Metode Penelitian ............................................. 45
B. Jenis Dan Sumber Penelitian ..................................................... 45
C. Tempat Dan Waktu Penelitian .................................................... 47
D. Teknik Pengumpulan Data Penelitian ........................................... 47
E. Teknik Analisis Data Penelitian .................................................... 49

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian ......................................................................... 55
1. Sejarah SMK Yappika Legok Tangerang ...................................... 55
2. Realitas tanggapan siswa terhadap penerapan model pembelajaran Means Ends Analysis di kelas X Multimedia 2 SMK Yappika Legok Tangerang .................................................. 60
3. Realitas Aktivitas belajar siswa Pada Mata Pelajaran PAI Bahasan Nikmatnya Mencari Ilmu di kelas X Multimedia 2 6BSMK Yappika Legok Tangerang .................................................. 66
4. Realitas Hubungan Antara Tanggapan Siswa Terhadap Penerapan Model Means Ends Analysis dengan Aktivitas belajar Siswa Pada Mata Pelajaran PAI Bahasan Nikmatnya Mencari Ilmu di kelas X Multimedia 2 SMK Yappika Legok Tangerang .................................................. 72

BAB V PENUTUP
A. Simpulan .................................................................................. 74
B. Implikasi .................................................................................. 75

DAFTAR PUSTAKA ........................................................................ 76
DAFTAR TABEL

1. Populasi dan Sampel Penelitian ................................................................. 43
2. Klasifikasi Drajat Korelasi ........................................................................ 50
3. Identitas Sekolah ......................................................................................... 54
4. Sarana dan Prasarana ................................................................................ 55
5. Pendidik dan Tenaga Kependidikan .......................................................... 57
6. Keadaan Siswa ............................................................................................ 57
7. Skor Nilai Variabel X .................................................................................. 81
8. Distribusi Frekuensi Data Variabel X ......................................................... 85
9. Frekuensi Observasi dan Ekspektasi Skor Modul X ............................... 87
10. Skor Nilai Variabel Y .................................................................................. 91
11. Distribusi Frekuensi Data Variabel Y ........................................................ 95
12. Frekuensi dan Ekspektasi Skor Modul Y .................................................... 98
13. Uji Korelasi dan Regresi .......................................................................... 102
14. Pasangan Data Variabel X dan Variabel Y Setelah Dikelompokan .......... 105
DAFTAR LAMPIRAN

1. Kisi-Kisi Penelitian .................................................................................................................. 76
2. Angket Penelitian Variabel X ................................................................................................. 77
3. Angket Penelitian Variabel Y ................................................................................................. 78
4. Pedoman Wawancara .............................................................................................................. 80
5. Skor Variabel X ....................................................................................................................... 81
6. Proses Perhitungan Variabel X ............................................................................................... 84
7. Skor Variabel Y ....................................................................................................................... 91
8. Proses Perhitungan Variabel Y ............................................................................................... 94
9. Uji Korelasi dan Regresi ......................................................................................................... 102
10. Daftar F (Luas daerah z skor) ............................................................................................. 111
11. Daftar G (Nilai persentil untuk distribusi t) ....................................................................... 112
12. Daftar H (Nilai persentil untuk Chi kuadrat) ..................................................................... 113
13. Daftar I (Nilai persentil untuk distribusi F) ....................................................................... 114
14. Surat Keputusan Penetapan Pembimbing Skripsi ............................................................... 115
15. Surat Permohonan Izin Penelitian ....................................................................................... 116
16. Surat Keterangan Telah Melaksanakan Penelitian .............................................................. 117
17. Foto-Foto Penelitian ............................................................................................................ 118
18. Daftar Riwayat Hidup ........................................................................................................... 121
19. Cek Plagiat ........................................................................................................................... 122
