ABSTRACT

Mastering reading skill ensures success not only in learning English, but also in learning where reading in English is required. With strengthened reading skill, students would make greater progress and development in all other areas of learning. In English subject, many students still find difficulties to interpret the meaning, vocabularies and hard to find the main ideas of reading passage. The teacher has to be creative in choosing the technique for teaching reading in order to make the students enjoy more when learning. The teacher can use REAP technique for teaching reading to enhance students’ reading ability.

The objectives of this research are to find out; 1) the students’ reading ability after being taught by using REAP technique; 2) the students’ reading ability after being taught by using Pre-Questioning technique; and 3) the significant difference between students’ reading comprehension with REAP technique and Pre-Questioning technique.

This research used quantitative method in quasi-experimental design. The population of this research was all second grade students of SMPN 4 Rancaekek Bandung which had 8 classes with 40 students each class. This research took 68 students from two classes; VIII-F as the control class and VIII-G as the experimental class. The instruments used in this research were pretest and posttest about reading text consisting 40 multiple choices test and the treatment of Reading, Encoding, Annotating, and Pondering (R.E.A.P) technique.

The findings of the research show: 1) the mean of pretest scores in experimental class is 48.90 and the result of pretest mean in control class is 48.67. Therefore the result of pretest mean score in experimental class is higher than pretest in control class; 2) the mean of posttest scores in experimental class is 66.83 and the mean of posttest scores in control class is 62.22. It means that the mean of posttest scores in experimental class higher than control class; 3) the result of data showed that the value of $t_{count}$ (2.064) and the value of $t_{table}$ with significance α 0.05 was (1.966). If $t_{count} > t_{table}$ (Ho) is rejected and (Ha) is accepted. It was proven that (Ho) was accepted, which means there is a significant improvement of students’ reading comprehension by using REAP technique and Pre-Questioning technique.
DECLARATION

I hereby declare that this paper entitled THE USE OF READING, ENCODING, ANNOTATING, AND PONDERING (REAP) TECHNIQUE TOWARDS STUDENT’S READING SKILLS (A Quasi-Experimental Research at the Eighth Grade Junior High School Students of SMPN 4 RANCAEKEK in the Academic Year 2017/2018) is completely my own work. I am fully aware that I have quoted some statements and ideas from other resources and they are properly listed as references.

ACKNOWLEDGEMENT

Bissmillahirrahmanirrahim, all the praises are due to Allah SWT who has given gracious mercy and tremendous blessing to finish the paper. Peace and salutation may be upon to the prophet Muhammad SAW, his family, his companions, and his followers.

The writer would like to thank to all of those who have given the contribution, so that the this paper can be finished. Then, the writer wants to express her sincere thanks to:

1. My beloved parents, Mr. Sugandi and Mrs. Royani. They are my everything for me. Thank you so much for your affection, advices, guidance, and spirits.
2. Dr. H. Sajidin, S.S., M.Pd, as the Head of English Education Department and also my first supervisor. He always gives me helps, advices and suggestions to finish this paper. Thank you for being my kindnest supervisor. Without your help this research paper cannot be completed.
3. Dahlya Indra Nurwanti, M.Pd, as my second supervisor. She always spending her time to guide her students. She correct all of my research paper. I really thank you for your best guidance and helps. So that, this research paper can be finished.
4. My best friends who always accompany and support me whenever and wherever. Papoy Squads, they are Nida Rahma Lutviani (Nida), Setiyani Lestari (Thea), Suci Muliawati (Uci), Septina Kurnia Fazrin (Septi), and Poppy Pujawetri (Popoy). We always support in any situation. They always give me suggestion and motivation when I got problems. We have different
characters and some of us like K-POP but it does not mean we cannot share and do anything together. Thank you all for being my friends who accompany me. So lucky to have you guys.

5. All my beloved friends of EED students ’13. I am very thankful and grateful to be one of them. Thanks for being my best friend. I never forget you all and everything that we have done together.

6. Mr. Drs. E. Sopandi. M.M.Pd, as the headmaster of SMPN 4 RANCAEKEK. He has allowed me to conduct the research in the school. His welcome to me is very warm. Thank you for giving me the opportunity to do the research in that school.

7. The vice headmaster of Curriculum of SMPN 4 RANCAEKEK. I really appreciate his support that helps me to conduct the research at the school. He is the one who has select and organized the students and teachers who can be my participant of the research. Therefore, the process of research at the school occurred successfully.

8. Elis Kania Sari, S.Pd, as the English teacher of Class of VIII F And VIII G. Thank you for giving me suggestions, helps and opportunity to conduct the research.

9. All the Eighth-grade students in SMPN 4 RANCAEKEK. Thank you for being good participants of the research. I am so glad to meet and teach you all.
