DAFTAR ISI

ABSTRAK ......................................................................................................................... i
ABSTRACT ....................................................................................................................... ii
KATA PENGANTAR ........................................................................................................ iii
DAFTAR ISI ..................................................................................................................... vi
DAFTAR GAMBAR ......................................................................................................... viii
DAFTAR TABEL ............................................................................................................... ix
DAFTAR SINGKATAN DAN LAMBANG ....................................................................... xii

BAB I PENDAHULUAN ............................................................................................... 1
  1.1 Latar Belakang ...................................................................................................... 1
  1.2 Rumusan Masalah ............................................................................................... 3
  1.3 Batasan Masalah .................................................................................................. 3
  1.4 Tujuan Penelitian ............................................................................................... 4
  1.5 Manfaat Penelitian ............................................................................................. 4

BAB II TINJAUAN PUSTAKA ....................................................................................... 5
  2.1 Palinologi ............................................................................................................. 5
    2.1.1 Bukti Palinologi ............................................................................................. 6
    2.1.2 Aplikasi Palinologi ....................................................................................... 9
  2.2 Tanah Gambut ...................................................................................................... 9
  2.3 Proses Pembentukan Fosil .................................................................................. 11
  2.4 Asetolisis ............................................................................................................. 12
  2.5 Reagen Kimia ...................................................................................................... 13
    2.5.1 Kalium Hidroksida ....................................................................................... 13
    2.5.2 Hidrogen Klorida ......................................................................................... 14
    2.5.3 Hidrogen Fluorida ......................................................................................... 14
    2.5.4 Seng Klorida ................................................................................................ 15
  2.6 Sentrifugasi .......................................................................................................... 16
    2.6.1 Prinsip ........................................................................................................... 16
    2.6.2 Tabung Sentrifugasi .................................................................................... 17
  2.7 Mikroskop ............................................................................................................. 18

BAB III METODE PENELITIAN .............................................................................. 19
  3.1 Waktu dan Tempat Penelitian .......................................................................... 19
  3.2 Bahan, Alat, dan Instrumentasi ......................................................................... 19
