ABSTRAK

Imas Sya'banah (2200040009) Implementation of Religious Habitual Programs to Enhance Religious and Discipline Character of Students at SMA Darussalam Wanaraja Garut

This research addresses the challenges in implementing religious habitual programs, including inconsistencies in execution, insufficient support from various stakeholders, and the need for extra efforts to ensure students' readiness to carry out these programs sustainably. Therefore, it is crucial to explore the subjective experiences of all parties involved, such as students, teachers, and parents, in implementing and supporting these programs.

The objectives of this study are to analyze 1) The religious habitual programs implemented at SMA Darussalam Wanaraja Garut to strengthen the religious and disciplined character of students. 2) The effectiveness of these religious habitual programs in enhancing students' religious and disciplined character. 3) The factors influencing the implementation of the religious habitual programs and their impact on students' religious and disciplined character at SMA Darussalam Wanaraja Garut.

This study employs a qualitative approach. Data analysis was conducted through data reduction, data presentation, and conclusion drawing. The validity of the data was ensured through extended observation, increased diligence, triangulation, peer discussion, member checks, and negative case analysis.

The findings of the study reveal the following conclusions 1) Religious Programs: SMA Darussalam Wanaraja Garut conducts activities such as congregational prayers, tahsin (Qur'anic recitation improvement), tahlidz (Qur'an memorization), and keputrian (special activities for female students) under the guidance of teachers and the student council (OSIS). 2) Effectiveness: These programs enhance students' religiosity and discipline, as evidenced by consistent worship practices, adherence to rules, and active participation. 3) Influencing Factors: The programs are supported by high-achieving students and school organizations but face challenges from globalization's influence and a lack of sympathy among some students. Nevertheless, the programs have a positive impact overall.
