

ABSTRACT

Devina Inka Putri (1175030066): Figurative Language of Stand up Comedy On Netflix

Keyword: Figurative Language, Stand up Comedy, Netflix

This research discussed about the figurative language that used in stand up comedy show which appear on Netflix. The research was analyzed the meaning of the used of figurative language and the characterization of the figurative language. There are two question in this research. Those are the type of figurative language that used in stand up comedy and the meaning of the used of that figurative language. From those statements of problem, using the theory of Laurie Rozakis about figurative language and additional theory from X. J. Kennedy about the type of figurative language also using the theory of meaning by Abdul Chaer, this research will be analyzed. By using that theory the transcript of stand up comedy show which appear on Netflix would be classified and analyzed after that. The method used in this research is using the qualitative method. It help the data described qualitatively.

From the result of the research, with using the theory above, it can be seen that there are figurative language that used in stand up comedy transcript which appear on Netflix that written by the research. The figurative language that appear are sarcasm, irony, hyperbola, simile, metaphor, personification, metonymy, synecdoche. Also known that every figurative language has different and there are exaggerating meaning too from what it said by the speaker or the comedian. It can be known too that the figurative language most used in this stand up comedy show is sarcasm figurative language. Over all it can be concluded that in this stand up comedy show is using figurative language for making the show more attractive rather than not using it.
