Kepada: Dr. Profulla Chandra Sarker &lt;editor.iaset@publication.us&gt;

Dear Editor  
International Journal of Humanities and Social Sciences (IJHSS)

I have read and used scientific articles published in IJHSS.

The performance of the IJHSS was excellent, and the published article helped me conduct research and write scientific articles.

I am Dedeng Yusuf Maolani, Lecturer from UIN Sunan Gunung Dati, Bandung, Indonesia.

I have completed a scientific article entitled "**Policy Study Based on Local Wisdom in Management of Natural Resources and Sustainable Environments in Indonesia.**"

I hope this article can be published in the IJHSS because there are interesting findings in the scientific article that can become new treasures in sciences, especially in the field of management sciences.

I am willing to go through the review process following IJHSS standards.

Best Regards,

Dedeng Yusuf Maolani  
UIN Sunan Gunung Dati, Bandung, Indonesia

Thank you for submitting your manuscript to IJHSS.

We have completed our evaluation, and the reviewers recommend reconsidering your manuscript following minor revisions. We invite your article to send back after addressing the comments below. Please resubmit your revised manuscript by March 4<sup>th</sup>, 2019, or ask whether an alternate date would be acceptable.

When revising your manuscript, please consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any comments not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author(s) at this email, and navigate to the "Revision" folder. IJHSS values your contribution, and I look forward to receiving your revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. Title: Perhaps you could consider changing the title to be more specific and focused. For example, "*Exploring the Role of Local Wisdom in Sustainable Management of Natural Resources: A Policy Study in Indonesia.*" With a more specific title, the reader will have a clearer understanding of the subject covered in the article.
2. It is advisable to expand the abstract to provide more detailed information about the study's aims, methodology, results, and conclusions. In this case, you can include these elements to provide a more complete picture of the article's contents.
3. Analytical Approach: Apart from mentioning the approaches mentioned earlier (political ecology, human welfare ecology, etc.), it is better to explain how each of these approaches is used or can be applied in understanding and studying local wisdom. This will give readers a better understanding of the relevance and usefulness of these approaches.
4. Concrete Examples: In sections that mention examples of local wisdom, such as in Sulawesi, Java, and Bedouin, it is better to give concrete examples that are more specific about what is an example of local wisdom in each area. This will help the reader understand the examples in question better.
5. Implications and Relevance: Add a few sentences explaining the implications of this research and its relevance to sustainable environmental and natural resource management in Indonesia. This will strengthen the argument about the importance of learning and preserving local wisdom in the context of public policy.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Dear

Dedeng Yusuf Maolani  
UIN Sunan Gunung Dati, Bandung, Indonesia

Thank you for your efforts to make improvements to your article.

Based on the Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. **References and Literature:** In the abstract, you should add several key references supporting local wisdom-based policies and sustainable natural resource management. This will strengthen the theoretical foundation of the article and provide a better understanding of the research context.
2. **Research Methodology:** Abstracts can provide a brief description of the methodology used in this study, such as the research approach, the type of data collected, and the method of analysis used. This will help the reader to understand the approach taken in this study.
3. **Research Contribution:** Include a sentence describing the unique contribution of this research to the understanding and development of local wisdom-based policies in sustainable natural resources and environmental management. Explain how this research can provide new insights or practical solutions in the Indonesian context.
4. **Limitations and Suggestions for Further Research:** It is better to add one or two sentences discussing the limitations of this research, for example, data limitations or the methodology used. In addition, provide suggestions for further research that can broaden understanding of the role of local wisdom in the context of natural resource management in Indonesia.
5. **Practical Significance:** In the abstract, include a sentence highlighting the practical significance of this research, such as how local wisdom-based policies can be implemented in a practical context to achieve sustainable natural resource management. This will reinforce the urgency and relevance of the research findings.

Articles that have been revised and please send them back via this email.
