This study aims to analyze the illocutionary acts in Amani Al-Khatahtbeh's speech titled "Going with the Flow or Defying the Current?" on the TED Talk YouTube channel. The research has two main objectives: first, to identify the types of illocutionary acts used; and second, to analyze the functions of each type. The data source for this study was taken from the transcript of the video uploaded on Saturday, September 8, 2016. The study employs a qualitative method using the illocutionary act theory proposed by Searle (1976) and Yule (1996), which covers five types of illocutionary acts. Among the 62 data points analyzed, the most dominant illocutionary act type is assertive. This is due to Amani's focus on conveying her views, sharing personal experiences, and providing information that reinforces her perspective on the topic discussed. No illocutionary acts related to declaration were found, as the speech does not aim to alter social status or situations but rather to share personal experiences and views. The most dominant illocutionary act function is stating, as the primary goal of the speech is to express Al-Khatahtbeh's personal views and beliefs to the audience. Other functions such as advising, suggesting, offering, vowing, guaranteeing, apologizing, congratulating, and declaration were not found in the data. This is due to the speech's focus on personal narrative and providing insight rather than giving advice, making offers, or formal declarations.

Penelitian ini bertujuan untuk menganalisis tindak ilokusi yang terdapat dalam pidato Amani Al-Khatahtbeh berjudul "*Going with the Flow or Defying the Current?*" di channel YouTube TED Talk. Ada dua tujuan utama dari penelitian ini: pertama, untuk mengidentifikasi jenis-jenis tindak ilokusi yang digunakan; kedua, untuk menganalisis fungsi dari setiap jenis tindak ilokusi tersebut. Sumber data dalam penelitian ini diambil dari transkrip video yang diunggah pada Sabtu, 8 September 2016. Penelitian ini menggunakan metode kualitatif dengan pendekatan teori tindak ilokusi yang dikemukakan oleh Searle (1976) dan Yule (1996) yang mencakup lima jenis tindak ilokusi. Dari 62 data yang dianalisis, jenis tindak ilokusi yang paling dominan adalah *assertive*. Hal ini disebabkan oleh fokus Amani dalam menyampaikan pandangannya, berbagi pengalaman pribadi, dan memberikan informasi yang menegaskan perspektifnya mengenai topik yang dibahas. Tidak ditemukan tindak ilokusi yang berkaitan dengan *declaration*, karena pidato ini tidak bertujuan untuk mengubah status atau situasi sosial, melainkan lebih pada berbagi pengalaman dan pandangan pribadi. Fungsi tindak ilokusi yang paling dominan adalah *stating*, karena tujuan utama pidato ini adalah untuk menyatakan pandangan dan keyakinan pribadi Al-Khatahtbeh kepada audiens. Fungsi lain seperti *advising*, *suggesting*, *offering*, *vowing*, *guaranteeing*, *apologizing*, *congratulating*, dan *declaration* tidak ditemukan dalam data. Hal ini disebabkan oleh sifat pidato yang lebih berfokus pada narasi personal dan pemberian wawasan daripada memberikan saran, tawaran, atau pernyataan formal.
