The following email was sent to Yati Rachmawati from Acta agriculturae Slovenica regarding Utilization of Tithonia diversifolia bokashi and Mycorrhiza on cultivation of Allium ascolicum L. grown on post-mine sandpits soil .

You are receiving a copy of this notification because you are identified as an author of the submission. Any instructions in the message below are intended for the submitting author, Yati Rachmawati, and no action is required of you at this time.

Dear Yati Rachmawati,

Your submission Utilization of Tithonia diversifolia bokashi and Mycorrhiza on cultivation of Allium ascolicum L. grown on post-mine sandpits soil has been reviewed and we would like to encourage you to submit revisions that address the reviewers' comments. An editor will review these revisions and if they address the concerns adequately, your submission may be accepted for publication.

The reviewers' comments are included at the bottom of this email. Please respond to each point in the reviewers' comments and identify what changes you have made. If you find any of the reviewer's comments to be unjustified or inappropriate, please explain your perspective.

When you have completed your revisions, you can upload revised documents along with your response to the reviewers' comments at your [submission dashboard](#). If you have been logged out, you can login again with the username yatisetiati.

If you have any questions, please contact me from your [submission dashboard](#).

We look forward to receiving your revised submission.

Kind regards,

Editor of Acta agriculturae Slovenica Prof. Dr. Franc Batič

The following comments were received from reviewers.

Reviewer 1:

Recommendation: Revisions Required

MANUSCRIPT FEATURES:**1. Originality of the work**

Acceptable

2. Practical relevance

Acceptable

3. Scientific relevance*

Acceptable

4. Completeness of the work

Acceptable

5. Support of the work by other references

Acceptable

ORGANISATION OF CHAPTERS:

6. Is the article's title clear and in accordance with its contents?

Yes

7. Does the article abstract properly reflect the content of the research?

Yes

8. Are the investigation aims properly set?

No

9. Are the key words properly chosen?

Yes

10. Clarity in writing, tables, graphs, and illustrations

Marginal

QUALITY AND CONSISTENCY:

11. Are all procedures for experiments, measurements, and data processing technically appropriate and without errors?

Yes

12. Have you checked the equations and calculations?

No

13. Are you aware of prior publication or presentation of this work?

No

14. Does the manuscript have parts that seem to have commercial intent?

Yes

15. Is the paper too long?

No

ETHICAL STANDARDS:

16. Has the work been conducted in conformity with the ethical standards of the field?

Yes

17. For research involving human or animal subjects, do the author(s) identify the committee approving the experiments and provide confirmation that all experiments conform to the relevant regulatory standards?

Yes

RECOMMENDATION:

18. This paper is: (check only one option):

Acceptable with minor revision (some clarifications or minor corrections)

COMMENTS:

- Your comments will be used to assist the author(s) in revising his/her/their manuscript.
- Do not reveal your name in your comments; these comments may be passed on directly to the author
- Separate your comments into the following three sections:

19. Suggestions that would improve the quality of the paper but are not essential for publication:

Please change the color of the columns in charts

20. Changes that must be made before publication:

change the color of charts.

Reviewer 2:

Yes

17. For research involving human or animal subjects, do the author(s) identify the committee approving the experiments and provide confirmation that all experiments conform to the relevant regulatory standards?

The research doesn't involve human or animal subjects

RECOMMENDATION:

18. This paper is: (check only one option):

Acceptable with minor revision (some clarifications or minor corrections)

COMMENTS:

- Your comments will be used to assist the author(s) in revising his/her/their manuscript.
- Do not reveal your name in your comments; these comments may be passed on directly to the author
- Separate your comments into the following three sections:

19. Suggestions that would improve the quality of the paper but are not essential for publication:

I suggest an English review by a native speaker.

20. Changes that must be made before publication:

P2L48: space

P2L49: italic font

P2L54: The sentence »The problem in the application of organic matter is the high....« should probably be: »The problem of fertilisation with organic matter is the high....«

P6L190: space

P6L193-195: Not clear. Please revise.

P7L222: space

P8L242: "stated" instead "added" ?

P9L286: space

P9L287: "potential" instead "potency"

Dear Prof Dr Franc Batic

We have completed the revision according to Reviewers suggestions. Our co-author, Yati Setiyati have upload the manuscript revision into the system. I hope that our revision meet what reviewers request. If there are things that still need to be improved, please let us know. However, because the revision is minor, it is expected to be published in the near future. Can it be published in October?

The following email was sent to Yati Rachmawati from Acta agriculturae Slovenica regarding Utilization of Tithonia diversifolia bokashi and Mycorrhiza on cultivation of Allium ascolicum L. grown on post-mine sandpits soil .

You are receiving a copy of this notification because you are identified as an author of the submission. Any instructions in the message below are intended for the submitting author, Yati Rachmawati, and no action is required of you at this time.

Dear Yati Rachmawati,

I am pleased to inform you that we have decided to accept your submission without further revision. After careful review, we found your submission, Utilization of Tithonia diversifolia bokashi and Mycorrhiza on cultivation of Allium ascolicum L. grown on post-mine sandpits soil , to meet or exceed our expectations. We are excited to publish your piece in Acta agriculturae Slovenica and we thank you for choosing our journal as a venue for your work.

Your submission is now forthcoming in a future issue of Acta agriculturae Slovenica and you are welcome to include it in your list of publications. We recognize the hard work that goes into every successful submission and we want to congratulate you on reaching this stage.

Your submission will now undergo copy editing and formatting to prepare it for publication.

You will shortly receive further instructions.

If you have any questions, please contact me from your [submission dashboard](#).

Kind regards,

Editor of Acta agriculturae Slovenica Prof. Dr. Franc Batič

Dear Yati Rachmawati,

A new submission is ready to be copyedited:

14751 — Utilization of Tithonia diversifolia bokashi and Mycorrhiza on cultivation of Allium ascolicum L. grown on post-mine sandpits soil
Acta agriculturae Slovenica

Please follow these steps to complete this task:

1. Click on my initial copyedited file attached in this discussion.
2. Place all illustrations at proper sites within the text body and leave my copyediting emendments intact. Respond to all my inquiries. Use the Copyediting Discussions area if you need to contact the editor(s) or author(s).
3. Save the copyedited file(s) and upload them to the Copyedited panel.
4. Use the Copyediting Discussions to notify the editor(s) that all files have been prepared, and that the Production process may begin.

If you are unable to undertake this work at this time or have any questions, please contact me. Thank you for your contribution to Acta agriculturae Slovenica.

Kind regards,

Editor of Acta agriculturae Slovenica Prof. Dr. Franc Batič
